

AIR FORCE FAMILIES FOREVER

Air Force Families Forever is a long-term aftercare program established to provide dedicated support for all Air Force families who have lost their Airman. In fact, the name for this program came directly from an Air Force family member who lost their loved one.

Operating out of Dover AFB, DE, at the Center for Families of the Fallen, these dedicated staff members are experienced in the mental health field and specialize in case management and grief support. Their mission is to provide resources, support and information to help family members adapt to life without their loved one, which can be extremely difficult, especially when journeyed alone.

Air Force Families Forever offers family members the opportunity to request additional grief and emotional support that has not been traditionally offered or supplied to all families. *Air Force Families Forever* takes a proactive approach in supporting families throughout the force, no matter where they are, with the level of support and assistance directly tied to the specific needs of the families.
